Notable features:

These are great houses in the sense of dignified, well-proportioned, large and important. The block developed from east to west in the 1840's. Some of these houses may be replacements for earlier and smaller gable roofed houses of the 1840's. Number 735 is earlier than 737-743, for example, and 733 is later than 735-743.

If possible they should be rehabilitated though the new road to the east may blight them.

Environmental context:

Public housing across Fayette Street. All are vacant -- the Boulevard will be built immediately east of these houses. Fayette is a busy, one-way street in need of trees and repaired sidewalk.
